

Kelly has cared for our son on a full-time basis. He originally went to a nursery where he had a constant snotty nose and always seemed to be unhealthy, since being with Kelly life has changed completely and no more snotty noses! Once meeting Kelly I knew that she was the perfect person for the job.

To us, Kelly has always demonstrated an exemplary approach to caring for our child. She is extremely organised and efficient with regards to administration. We were particularly impressed with the way that she has always kept us up to date with a daily diary. This is just one of many examples which highlight Kelly's genuine fondness towards the children she cares for.

Kelly's home environment has catered well for our son and he benefited hugely from the wide range of toys and activities that Kelly has provided for him. She has a great log cabin which is purely used for the children to play in. She also has a large garden, tailor made for children. Activities are well thought out and Kelly regularly provides information (both written and verbal) as to how he was interacting with other people and progressing during task-based activities. We found all of her observations to be of great interest over the months. Kelly regularly takes him to toddler group which he enjoyed immensely which allows him to interact with other children and meet new friends.

There is no doubt that we were extremely lucky to find a childminder who takes such a professional approach to her work, and has such a glowing Ofsted report. To us, however, it was the small things that she did such as texting or taking a picture to let us know that he was having fun during the day, and getting genuinely excited about new things he did that made us feel so secure in placing our son in her care.

Kelly is a very kind, approachable and sensitive person and we cannot recommend her highly enough. Please don't hesitate to contact us through her if you would like any more information
