

Dear Kelly,

I am writing to thank you for the childminding care you have given to Clark over the last ten months.

Your support during Clark's first few weeks with you was much appreciated. I was very anxious about leaving him and I feel you made this transition go as smoothly as it could. I have appreciated your daily comments sheets about Clark's day-to-day activities, and enjoyed the photographs of him that you have sent me via e-mail. I have always felt that Clark is safe and well cared for.

Clark is a confident and happy little boy who enjoys going out and about meeting other children. I believe this is in part due to your regular trips out to local children's centres, childminding groups, parks etc. As a health visitor myself I know how important this is.

Clark has always been well cared for and stimulated with toys appropriate to his age in a warm and friendly environment. Clark has also enjoyed spending time with Shane and your two girls and I know that he will miss you all.

Thank you again for your care and support.

Kind regards

A handwritten signature in black ink, appearing to read 'Joanna Cosker'. The signature is written in a cursive style with a large, looping initial 'J'.
